WORCESTER COUNTY.

The joint House and Senate committees on railroads paid Athol an unexpected visit Friday afternoon and a meeting with a number of leading citizens was held in the rooms of the Pequoig club. The matter discussed was the proposed consolidation of the Connecticut River and the Northern Massachusetts street railways. Senator Gordon of Springfield presided. No opposition appeared to the proposal, which requires legislative consent. All who spoke seemed to favor the consolidation and it was claimed that better service over the Northern Massachusetts line, which includes Athol and Orrange and Athol and Gardner roads, would be the result.
